

SURP Summer Undergraduate Research Program

22 June - 21 August 2026 Application deadline: 15 March 2026, 11:59pm

COSZO Internship

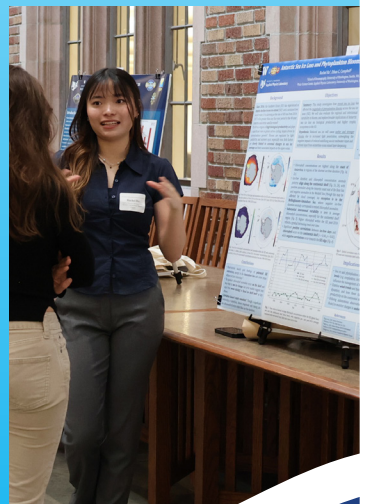

This internship program for undergraduate students provides opportunities to conduct your own Cascadia Offshore Subduction Zone Observatory (COSZO) research project with a skilled mentor, participate in professional development, build community with other young scientists, and learn to navigate a career in oceanography.

STEAM-E Internship

This internship program for undergraduate students provides opportunities to create an original artwork based on COSZO internship research projects, participate in professional development, build community with other young scientists and artists, and learn to navigate a career in oceanography.

For more information and to apply, visit: <https://www.apl.uw.edu/education/surp.php>

Hosted by Applied Physics Laboratory - UW. Interns receive \$7,000 stipend.
